

Welcome,

I'm Lucky Lieberman from butwhatthefukdoiknow.substack.com. When I first learned about substack.com around July 2025, I realized that I could become a Podcaster and share what I feel needs to happen to move the United States of America from the muck it has allowed itself to become, which is not the country it has the potential to be.

The USA is an amazing story, unfortunately with a very sordid history. One thing about me is, I strive to speak the truth, facts as I see them, and it is said that there are 3 sides to every story. Mine, yours and the truth.

Hence, the sordid truth must be known and shared.

Capitalism and Racism are two of our inherent defects in the USA. Capitalism is greed driven and free markets are predatory driven. They need regulations, which the greedy rich hate to have. Why? They lack understanding or true compassion for others, not realizing without people they have no employees or customers, both of which are citizens of the United States of America. So, who has the real power in the world? The People !!!

I'm here to make sure the World's people know this and show the People how to make them The Powerful People they are!! And it will come true!!

The greedy rich business owners, the bankers, the corrupted elected officials, the economists that work for the greedy rich, the financial community and the currency traders will all holler what I'm proposing is communism, socialism, the dollar will be worthless, the inflation will skyrocket, the U.S. dollar will not be the reserve world currency, and I say; "says who"?

Just look at the mess we are in, and the greedy rich business owners, the bankers, the corrupted elected officials, the economists that work for the greedy rich, the financial community and the currency traders all want status quo!!!

Lucky Lieberman says "NO STATUS QUO"!! butwhatthefukdoiknow

"No status quo" means there is **no desire to maintain the current state of things**, but instead to change it. The "status quo" is the existing state of affairs, and "no status quo" implies a rejection of the current situation in favor of progress or a different future.

The Citizen's Law Review Committee concept is to take the free reign of the Elected Leaders in the USA away from being able to be bribed, plain and simple. I wrote the rough draft of the heading with is under the heading "Documents" category on our Landing Page. You can read it, copy it or download it.

The Citizen's Law Review Committee needs to be sent to every Senator or Representative in Washington by you. Congress doesn't have their own email addresses, so you have to use the Senate.gov or House.gov, to look up their name and email page.

They don't allow attachments, so you have to copy and paste the Candidate's Voter Support Agreement into the body with the message of; DO YOU SUPPORT THIS AGREEMENT," which stops them from proposing or supporting anyone else's law unless they first have the law reviewed by the Citizen's Law Review Committee.

Please send it to everyone in Congress, even though they will only respond to the residents in their state, but their staff will see it, and everyone will talk about it in the halls of Congress.

We can also begin sending it to the media, and you can post it on Social Media.

WE WILL SPEAK IT INTO EXISTENCE!!! BUT ONLY YOU CAN MAKE IT HAPPEN! NO MORE CORRUPTION WILL BE TOLERATED. YOU THE PEOPLE ARE THE POWER, IF YOU UNITE AS ONE VOICE!

You can read how the Citizen's Law Review Committee operates on this website, please check it out and share it!!!

BEST OF GOOD LUCK ALWAYS.....

Many thanks,

Lucky Lieberman
